[2] At the end of your fixed period, your loan will move to the applicable variable revert rate for your product. This revert rate is calculated as the reference rate minus a margin, as set out in your loan contract. Revert rates apply only to existing loans and are not available for new lending.

[3] Reference rate applicable to this loan product. Rates are calculated using a reference rate plus or minus a margin. The reference rate is a benchmark that can change over time.
